

Orthotic & Prosthetic Services

Orthotic and Prosthetic Services

If life has presented you or your family with physical challenges and you require orthotics (bracing) or prosthetics (artificial limbs), we welcome you. Whether your need is from an injury, disease, disability, amputation or even if your feet just hurt, we believe that our team of dedicated clinicians and technicians with over 100 years of combined experience can dramatically improve your quality of life, by increasing mobility, restoring body image and assisting you in defining your personal goals. At Great Plains Health Company (GPHC) we view our clients as real people, with real “possibilities.” Great Plains Health Company; people caring for people in the manner of Saint Benedict...“Let all be received as Christ.” Thank you for choosing our family. How may we help yours?

Orthotics Care
